

## Apple in Education Profiles

[Click to Play &gt;](#)

For special education teachers around the world, iPad opens up a world of possibilities. Meet teachers at three schools — Special School Poděbrady in the Czech Republic, the Awase Special Needs School in Okinawa Prefecture, Japan, and New York’s District 75, the world’s largest special education district — and discover how they use iPad and apps to motivate learning, improve social interactions, and encourage independence in the classroom and beyond.
